1. THE VICTORY OF THE GREAT SOVIET ARMY. . .

May 9: Eight years ago today, Hitler, the enemy of mankind, was thoroughly defeated by the great Soviet Army, and world civilization was rescued from the menace of Fascism. As a result of this defeat, the nations of the world were able to advance toward the realization of socialism, and peace- and freedom-loving nations regard the Soviet victory as their own.

In Asia, many countries were freed by the Russian Army from cruel Japanese rule. Our Korean people at this time were unshackled and then founded a democratic people's republic. Now we, with the help of the Soviet Union, are contributing to world peace by repelling the invasion of imperialistic America.

After the arrival of our forces, thirty or forty skirmishes took place very day, and in spite of the fact that the enemy dropped more than one hundred bombs and fired 20,000 shells every day, we warded them off in all counterattacks.

He refused it, fearing that she would not pay for the loan of the cow. And although he had thirty bags of unhulled rice, he never loaned even a small amount to his neighbors who had no grains for seed. To help others is a beautiful and old Korean custom.

10. INCREASED PRODUCTION SHOULD BE KEY WORDS FOR ALL. . .

All farmers and village leaders, following the directions of our Premier, should eliminate all defects in farming by applying better and more advanced methods of farming.
